BHARATH P

Flutter & Frontend Developer

Phone: +91 6379541026
Email: bharathdevfrontend@gmail.com
Location: Chennai, Tamil Nadu
LinkedIn: https://www.linkedin.com/in/bharath-p-305235385/

PROFESSIONAL SUMMARY

Dynamic and detail-oriented **Mobile & Web Developer** with 5+ years of experience, specializing in **Flutter, React.js, Firebase**, and scalable architecture patterns. Strong expertise in MVVM**, Clean Architecture, Repository Pattern**, and modular application development. Experienced in **end-to-end application delivery**, including architecture design, UI development, API integration, real-time features, testing, optimization, and Play Store deployment.

Proficient in building **high-performance, secure, and maintainable mobile applications** with role-based access and structured Firestore models. Skilled in integrating cloud services, managing app lifecycles, optimizing performance, and delivering intuitive user experiences. Adept at working in **agile environments**, collaborating with cross-functional teams, and translating business requirements into reliable, production-ready software.

TECHNICAL SKILLS

Mobile: Flutter, Dart
Architectures: Clean Architecture, Repository Pattern
State Management: Provider, BLoC, Redux
Web: React.js, Vite, JavaScript, HTML, CSS, WordPress , Bootstrap
Backend & Cloud: Firebase Auth, Firestore, FCM, Cloud Storage, REST APIs
Tools & Platforms: Git, GitHub, Jira , Android Studio, VS Code, Material UI
Other Skills: SEO, Email Marketing (Mailchimp, Social Media Marketing)

CORE COMPETENCIES

- Mobile Application Clean Architecture
- Modular, scalable, maintainable code
- API integration & real-time features
- Play Store deployment & signing
- Debugging & performance tuning
- UI/UX implementation from Figma
- Strong problem-solving

PROFESSIONAL EXPERIENCE

KMU TechGrid Solutions – Flutter & Frontend Developer

May 2020 – Present | Chennai

- Architected and developed cross-platform applications using Flutter with scalable architecture.
- Integrated Firebase (Auth, Firestore, Storage, FCM) with optimized caching and structured data models.
- Converted complex UI/UX designs into clean, production-ready application interfaces.
- Implemented repository layers, services, utilities, and reusable components.
- Managed versioning, build signing, and Play Store deployment for multiple applications.
- Ensured high performance, smooth transitions, and consistent user experience.
- Optimized Firestore queries and caching to reduce read/write costs and improve real-time performance across modules.
- Integrated form validation, secure authentication flows, and restricted partner-access logic to ensure data security and role-based control.

MAJOR PROJECTS

Inspire Packers & Movers – Customer & Partner App (Flutter, Firebase, Google Maps)

A complete logistics application for users and partners built with architecture and Firebase backend.

- Implemented Repository pattern for clean, scalable code architecture.
- Integrated Google Maps, live location tracking, and address autocomplete.
- Developed Customer module: bookings, address search, quotation flow, and order tracking.
- Developed Partner module: job acceptance, status updates, live tracking, work-proof uploads.
- Designed end-to-end Firestore schema for customers, partners, and order workflows.
- Implemented push notifications using Firebase Cloud Messaging (FCM).

MoBooM eCommerce Web Application (React + Firebase)

- Developed product listing, search, cart system, and user authentication modules.
- Implemented Material UI-based reusable component system.
- Integrated Firebase Auth, Firestore, and hosting with optimized caching.
- Improved page performance and SEO visibility.

Inventory Management System (Flutter)

- Multi-role access control (Admin / Manager / Staff)
- Product & stock management with automated alerts
- Barcode/QR scanning for fast operations
- Supplier management, sales & purchase tracking

Internal HRM System (Flutter)

- Employee records & profile management
- Attendance and leave workflows
- Payroll calculations with allowances & deductions
- Role-based dashboards and performance evaluation

Digital Marketing & SEO Experience

- Managed SEO optimization, digital campaigns, and WordPress development.
- Executed marketing automation using Mailchimp & Sendinblue.
- Strong understanding of analytics, crawling, indexing, and technical SEO.

EDUCATION Qualification:

BE – Mechanical Engineering
Paavai College of Engineering, 2019

Soft skills

Problem-Solving |Communication | Team Collaboration | Adaptability | Time Management
